

# IS YOUR CHILD 11-14? DO THEY HAVE AN AUTISM SPECTRUM DIAGNOSIS?

**Developmental Social  
Cognitive Neuroscience**

**University of Maryland**

## Earn up to \$1000 in a University of Maryland Study!

**Participate in a social connection study:**

- **1 virtual visit**
  - Parents will complete an interview that lasts up to 3 hours
- **3 in-person visits**
  - Two at our lab at the University of Maryland
    - Teens will play games and interact with another teen in the study
  - One at the Maryland Neuroimaging Center (MNC)
- **6 virtual follow-ups over 20 months**
  - Text messages surveys asking your teen about their mood (teens can participate even if they do not have a cellphone)

**Learn  
more!**

**Weekday and weekend  
appointments!  
Free parking
